HyperCard: Print Stack Problem w LaserWriter Select 300 (8/93)

Article Created: 9 July 1993

Article Reviewed/Updated: 2 August 1993

TOPIC -----

If you have a LaserWriter Select 300 and using driver 1.0, you need to adjust the scaling of pages under Page Setup, or you will get 1-inch by 2-inch cards when you print a stack.

DISCUSSION -----

A suggested scaling is 500%. This will print two cards per page when the Print Card size set to Full.
