HyperCard: Determining Available Disk Space (7/92)

Article Created: 4 November 1990
Article Reviewed/Updated: 23 July 1992

TOPIC ---

Can I determine, from HyperCard, how much space there is on my hard drive?

DISCUSSION --

If you're in HyperCard and you want to check how much space you have left
on your storage volume, type "the diskSpace" (it's not case sensitive) into
the message box. HyperCard (versions 1.x through 2.1x) will display the
total amount of disk space free (in kilobytes) on the active volume.

This script works in all versions of HyperCard up through 2.1.
