HyperCard: Flaw in Power Tools Stack (3/93)

Article Created: 22 March 1993
Article Reviewed/Updated: 6 April 1994

TOPIC ---

Some versions of the Power Tools stack have a small flaw. This article
provides the workaround.

DISCUSSION --

The problem: the Show Palette button of the Window Manager card of the
Power Tools stack appears to be corrupt.

The symptom: the button does not highlight and does not show the Window
Manager palette.

The workaround: Copies of the button work fine.

1) Duplicate the button.

2) Delete the original.

3) Replace the original button with the duplicate copy.
