HyperCard 2.x and More Disk Space INIT (8/92)

```
Article Created: 26 May 1992
Article Reviewed/Updated: 26 August 1992

TOPIC -------------------------------------------------------------

There appears to be a problem with HyperCard 2.x  and Altsys Corp's "More Disk
Space" INIT.  This INIT performs resource compression using Apple's built-in
resource compressor.

If HyperCard has at any time been compressed by this utility, it will not allow
you to display large cards, regardless of the amount of memory allocated to the
application.  The cards will always appear smaller with the scroll window
displayed.

DISCUSSION --------------------------------------------------------

The fix is to re-install HyperCard from the original disks.  Decompressing the
application does not correct the problem.
