## HyperCard: Problem with Readymade Buttons Stack (7/92)

Article Created: 6 February 1991

Article Reviewed/Updated: 22 Jun 1994

TOPIC -----

In the Readymade Buttons stack is a card called "Create Card Pictures". A field on the button explains that the buttons will disappear momentarily while the card is being copied. However, if you are at userlevel 1 or 2 and click the button, an error message says that it doesn't recognize Copy Card. After clicking "OK" the buttons are gone.

DISCUSSION -----

As an immediate fix, type in show card button 1 or 2 (depending which one disappeared). As a permanent fix, the script needs to be changed. The following is a proposal.

```
on mouseUp
  if the userlevel >= 3 then
    hide me
    doMenu "Copy Card"
    show me
  else
    exit mouseup
  end if
  answer "Go to the card where you wish to paste the miniature card"-
  && "image and press Command-Shift-V." with "OK"
end mouseUp
```
