Japanese Localized Versions of Applications (9/93)

Article Created: 14 September 1993

TOPIC -----

I need a list of locations where I can purchase Japanese localized versions of the software without having to go to Tokyo. We're looking for Lotus 1-2-3 1.1J , Claris MacWrite II/Pro J, and Microsoft ExcelJ.

DISCUSSION -----

You can purchase Japanese localized versions of application software through any authorized Kanji Reseller. There's an article in the Tech Info Library that lists all of them country-wide. Search under "Kanji" and "Reseller".
