## JLK 1.0: Compatibility with Overseas Power Macintosh 1/96

```
Article Created: 3 May 1994
Article Reviewed/Updated: 26 January 1996

TOPIC -----------------------------------------------------------

This article describes a problem with the Power Macintosh and Japanese/Chinese
Language Kit (version 1.0) installer in Japan. This does not affect Power
Macintosh computers running version 1.0 of the Japanese/Chinese Language Kits in
the United States. The Power Macintosh and the Japanese/Chinese Language kits
version 1.0 are compatible in the U.S.

DISCUSSION ------------------------------------------------------

Version 1.0 of the Japanese Language Kit installer will replace the NuScript
manager with an old version. Version 1.1 of JLK/CLK is available internationally
to fix this problem. This issue does not affect the systems used in the United
States in any way.

Article Change History:
26 Jan 1996 - Made minor technical updates.
03 Mar 1995 - Changed title slightly, added Japanese Language Kit 1.1.
03 May 1994 - Updated article to reflect this as an international issue,
              not a U.S. issue.
