Japanese Language Kit: Freezes at Shutdown (6/95)

Article Created: 27 June 1995

TOPIC -----

I did a clean install of System 7.5 (International). Then I installed the Japanese Language Kit. It works ok with the Japanese script, but when I shut down or restart, it locks up.

DISCUSSION -----

This problem is fixed in System 7.5 Update 1.0, which can be found in the CD Extras folder on the JLK 1.2 CD, or Apple SW Updates on AppleLink, CompuServe, eWorld, and Apple's internet servers.

These articles can help you locate the software update mentioned here:

- "Where To Find Apple Software Updates" -- Lists online services for free Apple software updates.
- "Obtaining Apple Product Support in the USA" -- Lists 800 numbers and online services for software updates, Apple support information, and a subset of the Apple Tech Info Library.
