System Software: Availability of Localized Versions (11/94)

Article Created: 24 January 1991

Article Reviewed/Updated: 28 November 1994

TOPIC -----

Is there a French version of System Software? If so, how do I get a copy?

DISCUSSION -----

Localized versions of System Software are available in the country the software is localized for, and, in the past, they were available from APDA. APDA has not distributed versions since 6.0.3. However, later versions will become available to "Develop" subscribers in the form of a CD called "Developer Essentials." "Develop" subscription information is available in the APDA catalog.
