## Japanese Language Kit: Document Error with WordPerfect (9/96)

Article Created: 24 September 1996

TOPIC -----

I have System 7.5 on my Macintosh. I am using WordPerfect 3.1 and Japanese Language Kit (JLK) 1.x. Whenever I try to paste text from JLK into a WordPerfect document - I get a 'document error.'

DISCUSSION -----

Corel has a WordPerfect 3.1 Patch to correct this issue. From the WordPerfect Patch Read Me File:

"This updater fixes some problems with WordPerfect and the Japanese Language Kit, and adds some enhancements. Specifically:

- Problems with pasting formatted text from a third party application into WordPerfect
- Speed enhancements"

You can obtain the patch on the Internet at:
