- For technical accuracy.

TOPIC -----

We are considering the purchase of a site license for MacX, and we have a question about getting copies of the manual for our users. Is the manual for MacX available in electronic form? We would prefer to print copies on our LaserWriter instead of trying to duplicate the fuzzy hard copy that we have.

DISCUSSION -----

As of February 1991, you can buy the MacX manual. This will be the only way to obtain the manual separately from the software. To respond further to your question:

- The manuals are not available in electronic form.
- They may not be legally copied.
