## MacX: Macintosh OS Version Is Compatible with A/UX

Article Created: 20 August 1991

### Article Change History

-----  
08/31/92 - REVIEWED

- For technical accuracy.

### TOPIC -----

Can I use the Macintosh OS version of MacX under A/UX?

### DISCUSSION -----

Yes. The Macintosh OS MacX package is compatible with A/UX.

Install MacX and the MacTCP Tool from the Macintosh OS version; however, don't install either MacTCP or AdminTCP because MacTCP is already part of A/UX, and you need the A/UX versions.
