Environment Settings for MacX to OpenLook

Article Created: 5 March 1992

TOPIC -----

What are the environment settings for connecting to a Sun OpenLook platform when using MacX?

DISCUSSION -----

1) `setenv OPENWINHOME /usr/openwin`
`setenv LD_LIBRARY_PATH /usr/openwin/lib`

2) Add the next line to your path string:

```
$OPENWINHOME /bin: $OPENWINHOME /bin/Xview: $OPENWINHOME /demo
```

3) Command to start OpenLook Window Manager (don't start "openwin"):

```
setenv DISPLAY "@display"; /(root directory)/****/olwm
```
