AppleShare: Third-Party Compatibility (AppleShare-Aware) 3/93

Article Created: 29 September 1988

Article Change History

03/15/93 - UPDATED

- Acius now ACI US, Inc.

The following applications have successfully passed Apple testing for compatibility with AppleShare 1.1. They are both multiuser and multilaunch, and work correctly and safely in a shared environment. These applications and their files can be launched, opened and saved from AppleShare the same as they would be from a local disk.

*** DISCLAIMER

This list is not an endorsement or advertisement for products. It is meant to provide you with the best information that we can give regarding AppleShare-Aware applications. Questions on specific products are best answered by the manufacturers themselves. Remember, there is no substitute for hands-on use on the appropriate hardware and software configuration you intend to sell or buy.

The products listed here reflect ONLY those products tested by Apple. There are hundreds of Macintosh applications that were not tested. If you have a question about a product that is not listed, please contact the product's manufacturer directly.
