## AppleShare: Folder View Is Set by Owner

This article last reviewed: 19 June 1990

TOPIC -----

Is there any way to "set" an AppleShare file server, so that the folders and files are viewed by date instead of by folder as default?

DISCUSSION -----

The "View" choice for a folder is set by the owner of the folder. Once the owner has made the change (view by date, for instance), users of the folder won't see a difference until the folder has been closed by the owner.
