## MacX25: Dial-out Capabilities

This article last reviewed: 25 September 1989

TOPIC -----

What about MacX25 dial-out capabilities?

DISCUSSION -----

MacX25 works with "private dial X.25 services," like those offered by Telenet. MacX25 does not support X.32, which is the defined way of doing PUBLIC X.25 dial-in. X.32 is not widely-used today.
