E-mail Services for Novell's Netware

This article last reviewed: 9 June 1989

E-mail programs that support Novell's Netware Message Handling System (MHS) (designed by Action Technology) should be compatible and able to send mail to other E-mail programs on other systems supporting MHS. Some of those E-mail programs are:

- Coordinator (for MS-DOS clones) or MacAccess (for Macintosh) from Action Technology
- Di Vinci (for PC clones)
- Dyna Mail (for Macintosh)
- EasyGate (offers Fax services to E-mail systems supporting MHS) from Alcom Inc.
