System 7.5:MacTCP, CloseView, Easy Access & Easy Install (2/95)

Article Created: 25 August 1994
Article Reviewed/Updated: 15 February 1995

TOPIC ---

I have been using Easy Install for System 7.5 on a couple systems, and I cannot
seem to find MacTCP, CloseView, or Easy Access when completed.

Could you please let me know how to install MacTCP, CloseView, and Easy Access
on System 7.5 if it doesn't do it through Easy Install?

DISCUSSION --

MacTCP, CloseView, and Easy Access are not part of the Easy Install process
under System 7.5, you need to perform a Custom Install to include these
features.

• MacTCP: Click Custom Install and expand the view for Networking Software,
  you will see that MacTCP is the last item in the list. Click the MacTCP
  check box and then click Install if there are no other items you wish to
  install at this time.

• CloseView: Click Custom Install and expand the view for Control Panels,
  find CloseView in the alphabetical list. Click the CloseView check box
  and then click Install if there are no other items you wish to install at
  this time.

• Easy Access: Click Custom Install and expand the view for Control Panels,
  find Easy Access in the alphabetical list. Click the Easy Access check
  box and then click Install if there are no other items you wish to
  install at this time.

Article Change History:
15 Feb 1995 - Reviewed for technical accuracy, revised System 7.5 keyword.
01 Sep 1994 - Added CloseView and Easy Access not being part of Easy
              Install.
