GeoPort Software: Current Version in Apple Telecom 2.3.2 (1/96)

Article Created: 1 April 1994
Article Reviewed/Updated: 10 January 1996

TOPIC ---

The Express Modem 1.5.2 READ ME says I need, "(GeoPort rev 1.2.1 or greater)
provided with GeoPort disks" for Quadra 660AV and 840AV computers. Where can I
get it?

DISCUSSION --

NOTE THE FOLLOWING CORRECTIONS TO THE EXPRESS MODEM 1.5.2 READ ME

• The Express Modem II Card is only available outside of the U.S. on
  PowerBook 500 Series computers.

New versions of Express Modem software have been released. The latest version of
the Express Modem software is 2.3

What you should use

Apple released Apple Telecom software v2.3.2 which includes all the latest
versions of extensions and communications software to use with all Apple
PowerBook Express Modems, all Apple Comm Slot Express Modems, and Apple GeoPort
Telecom Adaptors.

If you own a PowerBook 500 Series computer with a PC Card Modem, or PowerBook
5300 series, or PowerBook 190 series, you should install the Apple Telecom/PC
Card Modem v2.3.1 software package.

The installer in both Apple Telecom software packages automatically places the
correct software on your hard drive for your computer's configuration. Both
versions of the Apple Telecom software packages are available on online
services.

These articles can help you locate the Telecom 2.3.x software mentioned here:

• "Where To Find Apple Software Updates" -- Lists online services for free Apple
software updates.

• "Obtaining Apple Product Support in the USA" -- Lists 800 numbers and online services for software updates, Apple support information, and a subset of the Apple Tech Info Library.
