Apple Network Administrator Toolkit & AWS 95 (7/96)

Article Created: 3 July 1996

Article Reviewed/Updated: 13 July 1996

TOPIC -----

Will the At Ease for Workgroups 4.0 package of the Apple Network Administrator Toolkit work on the Apple Workgroup Server (AWS) 95?

DISCUSSION -----

No, the At Ease for Workgroups 4.0 package of the Apple Network Administrator Toolkit is only supported on a Mac OS-based computer that functions as an AppleShare file server.

The At Ease for Workgroups 4.0 package will not work on an A/UX system such as the Workgroup Server 95. It will not work on Windows NT, NetWare or any other AFP compliant server. However, these AFP compliant servers may be used as Document Servers for At Ease for Workgroups.
