## Apple Remote Access and System 7.5.3 (7/96)

Article Created: 15 July 1996

TOPIC -----

Should Apple Remote Access (ARA) 2.1 be installed before or after System 7.5 Update 2.0?

DISCUSSION -----

The Read Me documents for System 7.5.3 and System Update 2.0 suggest that Apple Remote Access should be installed before System 7.5.3. This is not necessary. Beginning with version 2.1, Apple Remote Access should be installed after System 7.5.3.
