## Performa: Type 1 Error in Apple Backup (8/93)

Article Created: 18 August 1993

TOPIC -----

I recently bought a Performa 450 and have been running Apple Backup weekly. Suddenly, I'm getting a Type 1 error message when trying to run Apple Backup. Why?

DISCUSSION -----

Check your hard drive for a file that has a name beginning with a period (.), like ".newsrsrc". Rename the file so that it does not begin with a period, and Backup will run with no problems.
