SAM 2.0: Fix for MPW Linker Problem

This article last reviewed: 31 May 1990

TOPIC -----

SAM 2.0 has a problem with the MPW Linker. It refuses to learn about the MPW Linker adding CODE resources. What can I do?

DISCUSSION -----

Here is the fix for the MPW Linker problem:

- 1) Open SAM Intercept's resource fork with a HEX file editor (for example, FEdit).
- 2) Search for this hex string: "210370427ECFB8DE7E3A5C8F2874AE1B".
- 3) Change it to: "230370427A64DE3E18023C1F0C35E07E".
- 4) Save the changes.
- 5) Close the file.
- 6) Restart your Macintosh.
