MPW: Installer Documentation Is On Developer Services BBS

This article last reviewed: 27 July 1990

TOPIC ---

I was told that there would be documentation explaining modification of
Installer Scripts for those of us who have MPW. Is this documentation now
available (and do I already have it someplace?)

DISCUSSION --

Installer documentation is on the Developer Services bulletin board. It
includes a StuffIt archive containing documentation for Apple's Installer 3.0
and Tech Note #75, which documents Installer 3.0.1 scripting and changes from
previous versions of the Installer.

The StuffIt package consists of the following:

- A ScriptWriter's Guide to Installer 3.0 (MacWrite).

- Technical Reference for Writing Installer Scripts (MacWrite).

- An MPW Rez file, InstallerTypes.r.

- An MPW Tool, ScriptCheck, for testing scripts.
