QuickDraw GX: Can't Disable Manual Feed Alert (5/95)

Article Created: 27 September 1994

Article Reviewed/Updated: 24 May 1995

TOPIC -----

We have an automatic sheet feeder connected to the manual feed slot of our postscript laser printer, and we are using the LaserWriter GX driver.

Is there a way to turn off the manual feed notification dialogs with LaserWriter GX?

DISCUSSION -----

Be sure you have installed QuickDraw GX version 1.1.2 or later, and turn off the alerts for manual feed printing on PostScript printers by opening the Printing menu and choose Disable Manual Feed Alerts.
