System 7.5 & QuickDraw GX: Finder:error type 11 (2/95)

Article Created: 27 October 1994
Article Updated/Reviewed: 14 February 1995

TOPIC ---

My System crashed, and now I am getting the error: "Finder:error type 11"
whenever I start the system. If I remove QuickDraw GX, I do not get the error. I
have reinstalled my System Software, reset the PRAM, and run Disk First Aid, and
still get the error whenever I have QuickDraw GX installed.

DISCUSSION --

Try throwing away the Desktop Printer icon. This icon contains settings that
could have gotten corrupted when your system crashed.
