## LaserWriter 16/600 PS: QuickDraw GX 1.1.3 for Envelopes 11/95

Article Created: 1 December 1994

Article Reviewed/Updated: 10 November 1995

TOPIC -----

We are unable to use the envelope Feeder on our LaserWriter 16/600 PS when printing with LaserWriter GX installed by QuickDraw GX 1.0. Regardless of how our desktop printer, Page Setup, or the Print dialogs are configured, all output directed to the envelope feeder gets printed from the 250-sheet cassette tray.

DISCUSSION -----

This issue was fixed in subsequent releases of QuickDraw GX. You should update to QuickDraw GX 1.1.3 which is posted to online services.

These articles can help you locate the software update mentioned here:

- "Where To Find Apple Software Updates" -- Lists online services for free Apple software updates.
- "Obtaining Apple Product Support in the USA" -- Lists 800 numbers and online services for software updates, Apple support information, and a subset of the Apple Tech Info Library.

Article Change History:

10 Nov 1995 - Updated with latest version of QuickDraw GX.

27 Jul 1995 - Added information on updated software fixing issue.
