All Characters of the Skia Font Only Print w/QuickDraw GX (2/95)

Article Created: 18 January 1995

Article Reviewed/Updated: 16 February 1995

TOPIC -----

Is it not possible to print the Norwegian characters "æøå ÆØÅ" with the Apple TrueType font Skia even though the Skia font displays correctly on the screen?

I am using Norwegian System 7.5, LaserWriter driver 8.2, and a LaserWriter Pro 630.

DISCUSSION -----

Because Skia is a QuickDraw GX font, GX must be turned on in order for it to print. Turn on QuickDraw GX using the Extensions Manager Control Panel.
