System 7.x: Rebuilding Desktop on Diskettes

Article Created: 29 March 1993

TOPIC -----

In System 7, 7.0.1, and 7.1 we can't rebuild the Desktop File on diskettes unless there is something on the diskette. We need at least an empty folder on the diskette. Please explain.

DISCUSSION -----

This is a known problem and has been reported to our engineering team.
