System 7: Publish & Subscribe Requires Upgraded Applications

Article Created: 7 March 1991

Article Change History

09/22/92 - REVIEWED

- For technical accuracy.

TOPIC -----

Does Publish and Subscribe work with existing applications?

DISCUSSION -----

No. Applications must be revised to take advantage of the publish and subscribe functionality provided by the Edition Manager in System 7.

You'll know that an application offers the publish and subscribe features when you find the items "Create Publisher" and "Subscribe To...." in the Edit menu.

Contact your vendor or your Apple Dealer to find out if your current application can be upgraded to a new version that uses the publish and subscribe capabilities.
