System 7: Virtual Memory Page Size

Article Created: 5 August 1991

Article Change History

08/17/92 - REVIEWED

- For technical accuracy.

TOPIC -----

What is the page size for virtual memory and the largest swap of memory at one time?

DISCUSSION -----

The page size is 4K for virtual memory. In other words, with virtual memory turned on, System 7 will read and write memory to disk in 4K chunks.

The largest amount of RAM swapped to or from disk at one time is one megabytes.
