System 7: Old Adobe Fonts and Type 1 Errors (2/95)

Article Created: 7 January 1993
Article Reviewed/Updated: 02 February 1995

TOPIC ---

I've removed every third-party extension and several Apple extensions from
my System Folder, and I'm still getting Type 1 error messages.

DISCUSSION --

An old version of an Adobe font with an old version of the file format can
cause a conflict. Update fonts to the newer versions to solve this
problem.
