System 7.5: Disk Tools Takes Longer to Load (2/95)

Article Created: 09 September 1994

Article Reviewed/Updated: 15 February 1995

TOPIC -----

I noticed that the new "universal" 7.5 Disk Tools disk seems to run slower than earlier Disk Tools disk. Is there a reason for this?

DISCUSSION -----

This can be attributed to more compressed resources on the 7.5 Disk Tools disk. It takes longer to decompress and load these compressed resources than on earlier Disk Tools disks without compressed resources.
