System 7.5: Anomaly Deleting Notes From Note Pad (2/95)

Article Created: 04 October 1994
Article Reviewed/Updated: 16 February 1995

TOPIC ---

I want to delete a page from my System 7.5 Note Pad. I show the page I want
deleted and selected Delete from the File menu. A dialog box appears with Cancel
and Delete as selections, Delete is the default (outlined in bold). However,
when I hit the return or enter key, cancel is selected instead. Why is this?

DISCUSSION --

There is an anomaly with the default selection. To delete the note users must
click on the Delete button with the mouse.
