System 7.5: Updates, Versions, & What's Installed (10/96)

```
Article Created: 5 August 1996
Article Reviewed/Updated: 24 October 1996

TOPIC --------------------------------------------------------------

This article provides a guideline for determining installation requirements for
the various System 7.5 updates, and which System 7.5 version is installed.

DISCUSSION ---------------------------------------------------------

There are now several Mac OS System 7.5 configurations available which a user
may install. Each installer has unique requirements. In addition, the System 7.5
version that shipped on Macintosh computers varies.

The charts below provide a guideline to determine installation requirements for
the various System 7.5 updates/versions, and what System 7.5 version is
installed by choosing, About This Macintosh, under the Apple menu.

Begin_Table
