## Mac OS 7.6: About AppleShare 3.6.4 Read Me (1/97)

Article Created: 24 January 1997

TOPIC -----

This article is the About AppleShare 3.6.4 ReadMe file.

DISCUSSION -----

About AppleShare 3.6.4

If you have AppleShare versions 3.6, 3.6.1, or 3.6.2, you should update to AppleShare 3.6.4 before installing Mac OS 7.6 over a network.

If you have an earlier version of AppleShare, you do not need to install AppleShare 3.6.4.

Installing AppleShare 3.6.4  
-----

- 1) Drag the AppleShare 3.6.4 icon to your closed System Folder icon.
- 2) In the dialog box that appears, click OK to place AppleShare in your Extensions folder.
- 3) In the next dialog box that appears, click OK to replace your older version of AppleShare with the newer one.
- 4) Restart your computer.
- 5) Connect to the server you're using to install Mac OS 7.6.
- 6) Double-click the Install Mac OS icon to install the software.
