Mac OS 7.6 and PowerPC Interrupt Extension (1/97)

Article Created: 25 January 1997

TOPIC -----

Is the PowerPC Interrupt Extension a part of Mac OS 7.6?

DISCUSSION -----

The PowerPC Interrupt Extension is no longer a separate extension in Mac OS 7.6, it is now part of the OS. If the extension is installed on a computer running System 7.5.5, the extension will be removed during the Mac OS 7.6 installation.
