Mac OS 7.6 and Connectix Speed Doubler Issue (1/97)

Article Created: 30 January 1997

TOPIC -----

This article describes an issue between Mac OS 7.6 and Connectix Speed Doubler.

DISCUSSION -----

Some versions of Connectix Speed Doubler are not compatible with Mac OS 7.6. If you are using Speed Doubler version 1.3.1 or earlier, you should update to version 1.3.2. If you are using version 2.0, you should update to version 2.0.1. You should disable Speed Doubler until you can update your Speed Doubler software. Speed Doubler Updaters and more information on this problem are available from Connectix on the World Wide Web at:

<http://www.connectix.com/connect/upda.spee.html>

You may also call Connectix at 800-839-3632 for more information, or if you have any additional questions.
