Mac OS 7.6 & ATI's Xclaim VR Card (3/97)

Article Created: 13 February 1997
Article Reviewed/Updated: 10 March 1997

TOPIC ---

After Installing Mac OS 7.6, the computer freezes at startup. I have an ATI
Xclaim VR card installed.

DISCUSSION --

When using the Xclaim VR card from ATI Technologies with Mac OS 7.5.3 or Mac OS
7.6, you should remove the Graphics Accelerator extension that is installed.
