Apple FAX Modem: No Background File Transfers Under MultiFinder

Article Created: 23 June 1988
Article Last Reviewed: 16 October 1991
Article Last Updated: 16 October 1991

TOPIC -----

Does the AppleFax Modem support background file transfers under MultiFinder?

DISCUSSION -----

The Apple FAX Modem does not support background file transfers when launched under MultiFinder. The FAX software needs to be the foreground application under MultiFinder before files can be sent or received. Copyright 1988, 1991 Apple Computer, Inc.
