System Folder: 'Secure INIT' Update

This article last reviewed: 11 June 1990

TOPIC -----

This is regarding "RTA/Securing System Folder With 'Secure INIT'." Where can I get the "Secure INIT"?

DISCUSSION -----

Secure INIT was available on commercial services like GEnie and CompuServe, but has been pulled due to potential directory and file damage.

You would be better off with one of the commercially available protection programs, like Empower from Magna.
