Fax Terminal: Character Limitation In Notes Field (5/95)

Article Created: 31 May 1995

TOPIC -----

I am using the Express Modem and the Fax Terminal software v7.5 and I am having problems using the notes field. The notes field allows me to enter text into the notes field for a while (about a quarter of the way down), then I get a system beep and characters are no longer entered into the notes field. Why?

DISCUSSION -----

You are running into a limitation of the notes field on the cover page. This field can hold up to 255 characters, which is typically about 5 lines of text.
