## MAE 2.0: Serial Port Commtoolbox Not Supported (7/95)

Article Created: 11 July 1995

TOPIC -----

I am running the Macintosh Application Environment (MAE) 2.0 on a Sun Sparcstation (Solaris). When I try to run the Newton Connection Kit via the serial port I get a "Commtoolbox cannot be found" error.

DISCUSSION -----

The current version of MAE 2.0 does not support serial port communication on the Unix workstation (Sun or HP). The commtoolbox or Newton Connection/Tool Kit were not fully tested to work in MAE.

Serial port support has been on the feature request list of future MAE releases.
