MacCheck: System File Corruption Detected (8/93)

Article Created: 19 August 1993

TOPIC ---

MacCheck has detected System File Corruption on my hard disk.   What
should I do?

DISCUSSION --

Macintosh and Performa Users

If MacCheck detects corruption problems in your System, Finder, System
Enabler, or Launcher (Performa) files, replace these files using your
original Apple installation disks using the Apple installer.

Performa Users

• If you have backed up your Performa with Apple Backup, you can restore a
  backup of your System files with the Apple Restore program.

• If you have not created a backup of your system, please contact the Apple
  Assistance Center.
