Heap-Setting Utilities

This article last reviewed: 18 February 1991

TOPIC ---

Whatever became of CE Software's HeapFixer program?

DISCUSSION --

CE Software no longer supports HeapFixer as a free program. However, Bill
Steinberg, author of the Switch-A-Roo FKEY, Pyro!, the SystemErrors DA, and
so forth, has written a free program called Bootman. With Bootman, you can
set the heap, the number of events, and the number of windows, and shows
graphically how the heap is being used. It's available via bulletin
boards, user groups, CompuServe, and so on.
