CloseView: Not Compatible with Some RasterOps Video Cards

Article Created: 9 January 1992
Article Last Reviewed:
Article Last Updated:

TOPIC ---

My system locks up as the Closeview INIT is being loaded. CloseView is the
only INIT loaded. Virtual memory and 32-bit addressing are off.

Configuration:
- Quadra 900
- RasterOps GSXL ROM Version 1.4
- System 7.0.1
- Closeview

DISCUSSION ---

RasterOps Tech Support tested CloseView with their cards, and reports the
following:

Many RasterOps video cards contain code called Pan and Zoom that provides
functionality similar to CloseView. This RasterOps code is incompatible
with CloseView.

RasterOps recommends removing CloseView when using their video cards, and
using Pan and Zoom, accessible through the Monitor extension under options,
instead.
