MacTest Pro for Power Macintosh Version Info (1/97)

Article Created: 29 May 1996

Article Reviewed/Updated: 20 January 1997

TOPIC -----

This article is the MacTest Pro for Power Macintosh Version Information file.

DISCUSSION -----

The information in this VERSION INFO file is effective as of 02/21/96, and remains effective until the next update of MacTest Pro for Power Macintosh.

SUMMARY

This file contains useful information about the current versions of all MacTest Pro for Power Macintosh test modules and disks, as well as all currently available System Enablers.

MacTest Pro disk	Current Version	Notes
MacTest Pro (App+Mods1 PPC)	1.0	
MacTest Pro (App+Mods2 PPC)	1.0	
MTP Emergency (NuBus PPC)	1.0	1
MTP Emergency (PCI PPC)	1.0	2
MacTest Pro (PPC)	1.0	

Notes:

- 1 - 1.44 MB disk for use on Power Macintosh computers with NuBus slots
- 2 - 1.44 MB disk for use on Power Macintosh computers with PCI slots, and PowerPC based PowerBooks**

** The following computers are in the PowerPC-based PowerBook computer family: PowerBook 5300, 5300c, 5300ce, 5300cs, 2300c, 1400c, and 1400cs. Additionally PowerBook 200 and 500 series computers which have PowerPC upgrade cards installed are included in the PowerPC-based PowerBook computer family.

Test Module/Application Name	Current Version	Notes
------------------------------	-----------------	-------

MacTest Pro for Power Macintosh	1.0	
MTP Emerg (PPC)	1.0	1
Ethernet Card Tests (PPC)	1.0	
Expansion Card Tests (PPC)	1.0	
File Checker (PPC)	1.0	
Floppy Drive Tests (PPC)	1.0	
Hardware Info (PPC)	1.0	
Mass Storage Device Tests (PPC)	1.0	
Power Macintosh Tests Vol. 1	4.1	
Power Macintosh Tests Vol. 2	1.0.2	
Power Macintosh Tests Vol. 3	3.0	
PowerBook Series Tests (PPC)	1.0	
RAM/VRAM Tests (PPC)	1.0	
Software Info (PPC)	1.0	
Serial Loopback Tests (PPC)	1.0	

Notes:

1 - available on the MTP Emergency disks and MacTest Pro CD (PPC) only.

..... SYSTEM ENABLERS

The most current System Enablers are located in the System Enablers folder located on the MacTest Pro CD.

In some situations, the field appearing in several MacTest Pro windows that identifies the name of the machine being tested can be left blank or list a non-specific computer, e.g. "Macintosh". It can occur when using System 7.5 (or later). The correct name should still appear in the Hardware Info Log. Also the blank, or non-specific field display does not impact tests in any way. You can sometimes change the machine name display by removing from the bootable disk any System Enablers that are not required for the machine under test. Refer to the list of System Enablers below to determine which Enabler is required for each machine.

..... PERFORMA SYSTEM ENABLERS

Macintosh Performa 6100 series machines do not require System Enablers, however they do require System 7.5 or later.

Performa	System Enabler	Current Version	Notes
Performa 5200 series	System Enabler 406	1.0	A, B
Performa 5300 series	System Enabler 406	1.0	A, B
Performa 6200 series	System Enabler 406	1.0	A, B
Performa 6300 series	System Enabler 406	1.0	A, B

Notes:

- A - Requires System Software 7.5
- B - Requires System 7.5 Update 1.0

..... MACINTOSH & POWERBOOK SYSTEM ENABLERS

All bootable MacTest Pro Emergency (1.44) disks include System 7.5 and the appropriate Enabler files for the machines that are tested with those disks. Following is a list of the current Enabler files, the machines they support, and the current version numbers.

Most machines that require System Enablers prior to System 7.5, do not require those Enablers when running System 7.5 (or later).

Macintosh	System Enabler	Current Version	Notes
PowerBook 2300/5300	PowerBook 5300/2300/190 Enabler	1.2.1	D
Power Macintosh (NuBus only)	PowerPC Enabler	1.1.1	A
Power Macintosh 5200/75LC	System Enabler 406	1.0	A,B
Power Macintosh 5300/100LC	System Enabler 406	1.0	A,B
Power Macintosh 7200 series	System Enabler 701	1.1	D
Power Macintosh 7500/100	System Enabler 701	1.1	D
Power Macintosh 8500/120	System Enabler 701	1.1	D
Power Macintosh 9500 series	System Enabler 701	1.1	D
Workgroup Server 6150/66	WKGS Enabler	1.0	C
Workgroup Server 8150/110	WKGS Enabler	1.0	C
Workgroup Server 9150/120	WKGS Enabler	1.0	C

Notes:

- A - Requires System Software v7.5 or later
- B - Requires System 7.5 Update 1.0
- C - Requires System Software v7.5.1 or later
- D- Requires System Software v7.5.2 or later
