Quadra 630: SAM 4.0 Compatibility (3/95)

Article Created: 01 March 1995

TOPIC --

Are you aware of any problems with SAM 4.0 on a Quadra 630 running System 7.5?

DISCUSSION ---

Norton Technical Support states that they are not aware of any specific problems
with that configuration but that there are some inherent problems with SAM 4.0.
Version 4.0.1 is the update, and the current version is 4.0.2 which adds a new
virus definition.
