Apple Part Numbers: Where To Find Complete List

Article Created: 13 August 1991

    * RESTRICTED: Apple Internal and Support Providers Only *
                  Not For General Public Release

TOPIC ---

Is there is a reference list that shows all model numbers and descriptions
for past and present Apple equipment?

DISCUSSION --

A complete list of current and obsolete finished good part numbers does not
exist. However, you may contact Apple Technical Support for possible
information on a model number question you have. Since there is not a complete
list of finished goods, it may be impossible to identify the item by a finished
goods part number. Usually there is a product description by the part number
which can help more than the finished goods part number.

Article Change History:
10 March 1994 - Revised where to get information on obsolete products.
