Apple Keyboard II: Revisions A and B Identification

Article Created: 11 June 1992

* RESTRICTED: Apple Internal and Support Providers Only *
Not For General Public Release

TOPIC -----

How can I distinguish a Revision A from Revision B Apple Keyboard II?

DISCUSSION -----

- A Revision A keyboard has one ribbon connector coming from the keyboard.
- A Revision B keyboard has two ribbon connectors coming from the top row of the keyboard, and what appears to be an LED connector from the left side.

Refer to the Technical Procedures, ADB Input Devices, IPL section, pages IPL.7 and IPL. 8, for illustrations of the differences between the two keyboards.
